Chief, FBIB

Employees for transfer from Cairo to Cyprus

1. It is understood that you have received from Cairo a list of employees available and qualified for transfer to Kyrenia, broken down into non-Jewish and Jewish employees meeting Stateside standards, and non-Jewish and Jewish employees with special qualifications which [redacted] believes make their transfer desirable.

25X1

2. As indicated by enclosed copy of letter to [redacted] he has been requested to expedite clearance through Paddy of all employees meeting Stateside standards, with the exception of six, where doubtful security has been indicated by incomplete reports. It is understood that [redacted] checked off these names on your list.

25X1

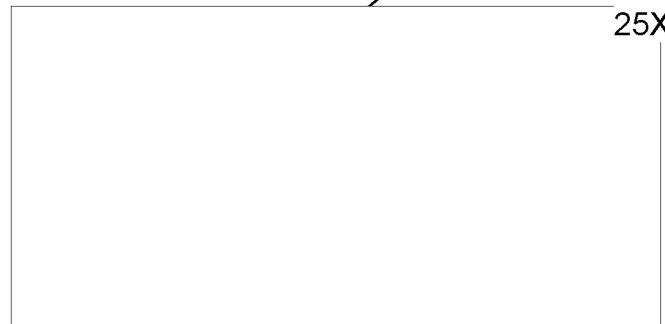

25X1

3. Request has not been made for Paddy clearance for employees not meeting Stateside standards pending your decision as to whether unavailability from other sources will justify the transfer of these employees.

4. Although there are no present indications that an emergency operation at Kyrenia will be required, it is desired that you remain prepared to initiate such an operation if the situation should change, in accordance with my cable of 3 June 1948, which provides for immediate monitoring of Arabic and Hebrew from Near East transmitters with two Arabic and one or two Hebrew monitors, and possibly one editor on loan from Caversham, and for expansion as rapidly as possible through transfers and recruiting.

L. K. WHITE

Enclosure: Copy of letter.
